

THE RESORT AT
PELICAN HILL
NEWPORT BEACH

THE COLISEUM POOL, ONE OF THE WORLD'S LARGEST CIRCULAR POOLS, IS PELICAN HILL'S HUB OF RELAXATION AND PAMPERING

Inspired by the timeless curves of Rome's famed landmark, the Coliseum Pool is the most strikingly unique swimming pool at any resort – and the heart of The Resort at Pelican Hill®. At the Resort's pleasure forum overlooking endless sea and coastal backdrops, guests gather daily to see and be seen, immerse themselves in the hottest pool scene on the coast, relax under the Southern California sun, and wile away the days pampered by pool attendants in ultra-luxurious private cabanas.

Perfectly circular, 136 feet in diameter and three feet deep throughout, the Coliseum Pool is one of the largest circular pools in the world, holding 380,000 gallons of water. It dazzles with classic architecture of vaulted arches, corniced columns and amphitheater of terraced decks. Set like a precious gem amidst this stunning architecture, the pool itself is a work of art. Its radiant blue bottom was created by hand-setting 1.1 million hand-cut glass mosaic tiles.

Daily Pleasure Forum: The Coliseum Pool is truly the heart of Pelican Hill, where the guests gather daily for relaxation, pleasure and pampering. Sunbathing in luxurious lounge chairs or relaxing in their own private cabana, guests' every need is fulfilled by pool attendants, from towels to cool drinks and tasty poolside fare.

Ultra-Luxurious Cabanas: The 18 cabanas are suite-like pleasure centers unto themselves, equipped and appointed with every amenity. Each private cabana includes a Bose music system; 30-inch flat-screen HD TV, mini refrigerator stocked with complimentary sodas, juices and water; ceiling fan and recessed lighting on dimmer switches; circular dining table with two chairs; and two luxurious lounge chairs. Located on the pool's upper level, the cabanas are 170 square feet, with elegant drapes for privacy and personalized food and beverage service.

Stunning Views: The Coliseum Pool is perfectly positioned to take in the most expansive and breathtaking panoramas. Guests enjoy an open view – a highlight of the poolside experience – that spans from verdant fairways to the Pacific to the Southern California coast. Starphire glass – which is clear and colorless, and doesn't block or influence actual colors – encloses the pool area to protect it while ensuring unimpeded, pure vistas.

Saltwater Pool: Guests enjoy chemical-free soft salt water that feels good on the skin.

Coliseum Pool & Grill: The poolside restaurant is an incomparably fun and intriguing place to dine, with its superbly prepared menu of American favorites, whimsical table settings of bright aquamarine plates and blue-tinted glassware, relaxed and unpretentious atmosphere, and magnificent back drop of the Pacific Ocean. The menu offers everything from pizzas, pannini and sandwiches to seafood dishes, pastas, specialty salads and even smoothies. The bar features a giant nine-foot flat-screen HDTV for viewing sports and other events. A Coliseum Kids menu serves endless pizza, pasta and gelato, among other children's favorites.
